INTRODUCTION

This program is offered to OSH practitioners, individuals seeking for career advancement in their career. In UNIMAS, we understand that becoming a safety and health professional requires multidisciplinary training. Therefore, our program embedded a broad-based educational background combined with specialized knowledge in physical sciences (medicine, physics, chemistry and engineering) and social sciences (behaviour, motivation and communication) together with the principles and concepts of management. There are two modes offered which are full-time or part-time. This programme is most suited to those who wish to further their education either in campus or the comfort of their home as we offered both conventional and open and distance learning.

ADMISSION

The MSc. OSH programme is based on trimester system; February, June and October in an academic year. Application is open throughout the year and can be done via

aos.ai.unimas.my

PROGRAMME STRUCTURE

Core Modules

KMO 6013 Accident Prevention & Emergency Response Plan
